foreword

from the Foreign Vessel Administrator

The Tuvalu Ship Registry opened its doors to foreign ownership through the adoption of the Open Ship Registry Bill in 2004.

Since then, Tuvalu has grown from strength to strength gaining tonnage and at the same time improving our Port State Control records in the Tokyo and Paris MOU.

We remain dedicated to our ship owners and maintain an owner-oriented approach by being open to feedback from our ship owners on the ways we can improve our quality of service. We continue to explore new ways to interact with our ship owners to better understand the problems faced in the maritime industry in order to offer solutions.

In this latest edition of our brochure, we have streamlined and reduced the number of pages to be in line with our efforts to be more environmentally friendly. This was made possible by making references to our new and updated website where ship owners and managers will be able to download procedures, forms, circulars, legislation, and important updates.

Our goal for the future will continue to be focused on serving the needs of our ship owners at any time and any place.

I welcome you on board.

Mr. Lenati Sioni
Foreign Vessel Administrator

我们始终坚持以客户需求为我们的发展方向，不断接收船东的回馈来改进我们的服务质量。通过与我们的船东共同探讨各种面临的问题，从而获取更好的解决方案。

在这一季最新版本的宣传手册中，我们精剪了篇幅，但是您可以通过网站了解我们的最新动态，下载最新的申请表格，申请步骤以及海事通函等。

TUVALU MARITIME LEGISLATION

The Tuvalu Merchant Shipping Act 1987 was amended in 2004 for the registration of foreign vessels. The amendments included specific provisions relating to vessel ownership requirements, mortgages and ship registration. This allows for the commercial operation of an international ship registry within a sound legal framework.

A copy of the Tuvalu Maritime Legislation can be downloaded from www.tvship.com.

THE FLAG STATE ADMINISTRATION

Major responsibilities of the Tuvalu Ship Registry include:

- Registration and licensing of ships
- Certification of seafarers

- Recording and discharge of mortgages

ADMINISTRATION POLICY

To be responsive to individual and collective needs of ship owners; providing quality services consistent with international conventions, rules, regulations and standards.

To achieve this, the Tuvalu Ship Registry has implemented a corporate-wide quality management system which will serve to fulfil expectations, increase efficiency, establish controls and foster a culture committed to excellence.

FLAG STATE INSPECTIONS

Flag State inspections are conducted by Flag State Inspectors to review the general condition of the ship, her operations and documentation to ensure that the minimum standards are present.

Tuvalu Ship Registry believes this practice will potentially result in savings by ship owners as the likelihood of being detained by Port State Control (PSC) is minimised with good maintenance.

船旗国检验

船旗检验由船旗国检察官执行，主要是看一下船舶的大致情况，比如营运情况，文档管理等是否符合要求。

图瓦卢船舶注册局坚信该举措能够有效帮助船东减少滞留，减少船期的延误，避免船东在金钱和时间方面不必要的损失。
